

## **Annual Report on CSR Activities for the Financial Year 2024-25**

### **1. Brief outline on CSR Policy of the Company:**

- The Company has in place a Corporate Social Responsibility Policy laid down in accordance with the provisions of Companies Act, 2013 and rules made thereunder, which is available on the Company's website.
- The Company under its CSR policy, affirms its commitment of seamless integration of marketplace, workplace, environment and community concerns with business operations by undertaking following activities / initiatives that are not taken in its normal course of business and/or confined to only the employees and their relatives and which are in line with the broad-based list of activities, areas or subjects that are set out under schedule VII of the Companies Act, 2013 and Rules made thereunder as amended from time to time.
  - i. To eradicate hunger, poverty and malnutrition, promote health care including preventive health care and sanitation and to make available safe drinking water;
  - ii. To promote education, including special education and employment enhancing vocation skills especially among children, women, elderly, and the differently abled and livelihood enhancement projects;
  - iii. To promote gender equality, empowering women, setting up homes and hostels for women and orphans; setting up old age homes, day care centres and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups;
  - iv. To ensure environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agroforestry, conservation of natural resources and maintaining quality of soil, air and water.

- v. To contribute to the Prime Minister's National Relief Fund or Prime Minister's Citizen Assistance and Relief in Emergency Situations Fund (PM CARES Fund) or any other fund set up by the Central Government for socio-economic development and relief and welfare of the Scheduled Castes, the Scheduled Tribes, other backward classes, minorities and women;
  - vi. To spend CSR funds on various activities related to COVID 19 under item nos. (i) and (xii) of Schedule VII relating to promotion of health care including preventive healthcare and sanitation and disaster management.
  - vii. To undertake such initiatives/projects or participate in any events as the CSR Committee / Board may consider appropriate in areas or subjects that are set out under Schedule VII of the Companies Act, 2013, by adhering to the provisions of the Companies (Corporate Social Responsibility Policy) Rules, 2014 as amended by the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 (CSR Rules), Companies (Amendment) Act, 2019, Companies (Amendment) Act, 2020, such other applicable Rules made thereunder as amended from time to time and in accordance with the various CSR circulars, guidelines, clarifications and FAQs as may be issued by the Ministry of Corporate Affairs from time to time.
- The Board of Directors has constituted the CSR Committee and the scope of the CSR Committee includes: to formulate and recommend to the Board, a Corporate Social Responsibility Policy which shall indicate activities to be undertaken by the Company in areas or subject, specified in Schedule VII of the Companies Act, 2013, specifying modalities of execution of such projects or programs which may be annual or ongoing in nature and implementation schedule for the same and monitoring the process of such projects or programs; to recommend to the Board an Annual Action Plan of CSR activities to be undertaken in pursuance of Schedule VII of the Companies Act, 2013 and the CSR Policy and recommending any amendment to the approved Action Plan during a financial year; to recommend the amount of expenditure to be incurred on the CSR activities ; to review and recommend to the Board, the treatment of unspent / excess spent of CSR funds and surplus arising out of CSR activities, if any in accordance with the provisions of the Companies Act 2013 and Rules made thereunder as amended from time to time; to monitor the activities undertaken pursuant to Corporate Social Responsibility Policy of the Company from time to time by instituting a transparent monitoring mechanism for implementation and reporting of the CSR projects or programs or activities undertaken by the Company;

to review and recommend to the Board the appointment of an independent agency for carrying out impact assessment and impact assessment reports, if any, of the CSR Projects undertaken by the Company; to review and recommend to the Board the funds utilisation certificate submitted by the Chief Financial Officer or the person responsible for financial management and such other activities as may be delegated by the Board from time to time or as required under the Companies Act, 2013 and Rules made thereunder as amended from time to time.

**EXECUTIVE SUMMARY OF IMPACT ASSESSMENT CONDUCTED FOR THE CSR PROJECTS UNDERTAKEN DURING THE  
FY 2022-23**

**a. Executive Summary:**

India faces significant challenges in cancer care and eye health due to its vast population, limited healthcare resources, and uneven access to medical services. In 2022, India reported 1.46 million new cancer cases, with childhood cancers representing 4% of these and disproportionately affecting those from low-income families. Meanwhile, India is home to 62 million people with visual impairment, including 8 million cases of blindness, where 62.6% stem from preventable conditions like cataracts. These critical health challenges highlight the need for accessible cancer and eye care services, particularly in rural and underserved areas.

To address these pressing issues, The Clearing Corporation of India Limited (CCIL) launched a series of projects in FY 2022-23 aimed at expanding healthcare access and providing financial aid for cancer and eye care treatment across eight states in India. Partnering with Tata Memorial Centre, Indian Cancer Society, Sankara Nethralaya (a unit of Medical Research Foundation), and Cancer Institute (WIA), CCIL's Corporate Social Responsibility (CSR) initiatives provided free diagnostic and treatment services to marginalized groups, aiming to reduce healthcare disparities in these critical areas.

These initiatives, reaching over 2,200 individuals, exemplify CCIL's commitment to improving healthcare equity through financial aid, capacity-building, and partnerships with medical institutions across India. CCIL's focus on reducing financial strain, providing advanced medical equipment, and engaging local communities has not only directly benefited individual patients but also enhanced healthcare infrastructure in underserved areas. This holistic approach has facilitated early diagnosis, promoted treatment adherence, and built awareness within communities, contributing to long-term improvement in healthcare outcomes for cancer and eye care in India.

Through these targeted projects, CCIL has made a significant impact on healthcare access for vulnerable populations, establishing a model of CSR-driven healthcare interventions that addresses India's cancer and eye care challenges with sustainable solutions.

**b. Impact of Contribution to Emergency Fund/Seed Fund to initiate cancer treatment and complete financial adoption of children/young adults for cancer treatment**

Established under the guidance of the Tata Memorial Center in 2010, the ImpaCCT Foundation Society aims to provide holistic support for childhood cancer patients, offering comprehensive services from diagnosis to treatment. The foundation also offers assistance through staff specializing in nutrition, social work, supplementary aid, counseling, and residential support for both patients and their caregivers.

With the support of the Emergency Fund/Seed Fund provided by CCIL, the ImpaCCT Foundation has assisted a total of 101 patients (aged 0–16 years), by providing Rs. 50000 per patient directly to the hospital to cover essential diagnostic procedures such as blood tests, X-rays, ECGs, and PET/CT/MRI scans necessary for cancer screening. However, in many cases, the cost of further treatment exceeded the amount available through the fund. As a result, the ImpaCCT Foundation initiated complete financial adoption to provide additional treatment and counseling to such children and youth. Over the last year, 133 children benefited, with their treatment expenses ranging from Rs. 1 lakh to Rs. 3 lakhs being covered. **A total of 234 children were supported through this initiative.** The key highlights of the project are mentioned below:

- Enabled early cancer diagnosis and timely treatment, improving survival rates.
- Provided holistic support, including financial aid, accommodation, nutrition, and counselling.
- Prevented financial distress for families by reducing dependence on high-interest loans or asset liquidation.
- Social workers facilitated the application process and provided emotional support to families.

From an economic standpoint, the project relies on donor funding to finance diagnosis and treatment services until patients can tap into government health programs or secure further support from other donors, making it dependent on ongoing external contributions. Despite this reliance, the project has achieved positive long-term health outcomes by enhancing children's survival rates and easing the financial strain on families, thereby fostering sustainable, long-term benefits.

**c. Impact of the Indian Cancer Society-Dr. Arun Kurkure Initiation and Treatment Fund (AKITF) and Cancer Cure Fund (CCF)**

The Indian Cancer Society (ICS) is a pioneering non-profit organization committed to combating cancer in India through prevention, early detection, treatment, and support services. Over the years, ICS has led efforts to control cancer by advocating for public health policies, raising cancer awareness, providing financial assistance to patients, and promoting cancer research.

Under its Cancer Cure initiative, ICS runs two critical programs: the Dr. Arun Kurkure Initiation and Treatment Fund (AKITF) and the Cancer Cure Fund (CCF). These programs address the financial barriers that underprivileged patients often encounter when seeking cancer treatment. Supported by The Clearing Corporation of India Limited (CCIL), the Cancer Cure project facilitates diagnostic and treatment support across nine hospitals in seven states.

Through the AKITF intervention, **621 beneficiaries supported up to Rs. 25,000 each provided directly to the hospitals**, assisting economically disadvantaged patients with initial diagnostic and treatment costs, enabling them to start cancer treatment while seeking additional funding. Meanwhile, the Cancer Cure Fund (CCF) provided financial aid of up to Rs. 5 lakhs directly to hospitals for 18 patients diagnosed with early-stage or curable cancers. The key highlights of the project are mentioned below:

- Reduced financial barriers, enabling patients to access essential cancer care without exhausting family resources.
- Improved early detection and treatment adherence, leading to better survival rates.
- Enhanced patient and family resilience through counselling and psychosocial support.

- The initiative has been particularly impactful for women, with 55% of the patients diagnosed with breast, cervical, ovarian, or uterine cancers—some of the most prevalent types in India.
- Fostered partnerships with hospitals for seamless fund disbursement and timely treatment delivery.

The long-term sustainability of AKITF and CCF is supported by their contributions to capacity-building within regional hospitals, which now have enhanced staff training, patient follow-up systems, and infrastructure capable of supporting comprehensive cancer care. This improvement ensures that hospitals are better equipped to serve as sustainable cancer care providers even after funding from ICS and CCIL subsides. Additionally, efforts to raise community awareness, create tobacco-free zones, and expand outreach through local health workers promote a self-sustaining impact, as health awareness grows and support systems continue to operate independently within these communities. Through these initiatives, the Cancer Cure programs leave a lasting legacy in both cancer care and preventive health in underserved areas.

#### **d. Impact of Support for complicated major eye surgeries performed on indigent patients**

The Sankara Nethralaya (a unit of Medical Research Foundation), is committed to advancing medical knowledge and improving ophthalmological care. This initiative aims to provide comprehensive eye care services by combining clinical expertise with innovative research to address critical vision-related issues. Over the past year, **the initiative supported 500 patients**, including children and senior citizens from economically disadvantaged households across rural and semi-urban areas of West Bengal and Tamil Nadu. The key highlights of the project are mentioned below:

- Common conditions treated include retinal detachment, diabetic retinopathy, cataracts, and glaucoma, preventing irreversible vision loss in high-risk groups.
- 65% of respondents cited financial barriers as the primary obstacle to accessing eye care, which this initiative successfully overcame by providing free treatment.

- 61% of respondents were previously unaware of the financial assistance available for eye care, which the program addressed through outreach and education.
- Telemedicine played a significant role in providing post-operative care, ensuring continued treatment and reducing the need for patients to travel for follow-ups.
- The initiative has led to life-changing improvements in patients' quality of life, enhancing their economic independence and restoring their ability to support their families.

The project demonstrates a strong potential for long-term sustainability as collaborative partnerships were formed with local NGOs, ASHA workers, community health workers and leaders, and healthcare providers to create a foundation for continued outreach and service delivery. The use of telemedicine also enhances sustainability by providing a cost-effective way to ensure ongoing care for patients after surgery. Furthermore, the focus on raising awareness about eye health and the availability of services ensures that future demand for eye care will be more proactive, potentially reducing the burden on healthcare providers in the long term. The financial support from CSR initiatives and the involvement of NRI sponsors provides a stable funding model, further ensuring the project's capacity to sustain its operations and impact over time.

#### **e. Impact of Free of Cost Cancer Treatment for Women**

The Cancer Institute (WIA) has been a leader in cancer care in India. It provides a comprehensive range of services, including diagnosis, treatment, rehabilitation, and research, with a focus on various types of cancers. The institute is known for its commitment to offering affordable cancer care, particularly for underserved populations. By leveraging advanced medical technology and a multidisciplinary approach, it is dedicated to improving women's health outcomes and enhancing the quality of life for cancer patients.

In collaboration with CCIL, WIA launched an initiative to provide free cancer treatments for women, follow-up care, counseling, screenings, and awareness programs to underprivileged women in Chennai, Tamil Nadu, who are battling breast, ovarian, and uterine

cancers. This project has positively impacted both beneficiaries and stakeholders, demonstrating meaningful results across multiple dimensions. **The program reached 841 women from marginalized backgrounds** in rural and urban areas.

- The initiative reached underprivileged women battling breast, ovarian, and uterine cancers, providing them with free treatments that they otherwise could not afford. 74% of respondents identified financial limitations as their primary challenge, highlighting the significance of this support.
- More than 87% of beneficiaries received financial assistance within 15-30 days, easing their economic burden and enabling timely treatment.
- The program offered not only cancer treatment but also counselling, follow-up care, and psychological support, addressing both medical and emotional needs. Around 87% of were alleviated by this holistic support system.
- 58% of women were previously unaware of the treatment options available. The program's awareness and screening efforts helped raise community knowledge, thereby promoting early detection and challenging cancer stigmas.
- The initiative had a ripple effect, benefiting families and communities, especially since many women are primary caregivers. It also improved the well-being of these families, with support for children's education and basic needs.
- 73% of women emphasized the importance of ongoing financial support to continue benefiting from the program. While successful, the project faces challenges in meeting the increasing patient demand due to infrastructural constraints.

The sustainability of the project depends on continuous funding and infrastructure improvements to meet increasing demand. Stakeholders have emphasized the importance of ongoing financial support to maintain the momentum of the initiative. The involvement of local NGOs, government entities, and the Cancer Institute (WIA) in awareness and screening efforts provides a strong foundation for the project's long-term success.

## **f. Conclusion**

The initiatives supported by CCIL have achieved notable progress in enhancing access to cancer and eye care services. To further expand the reach, improve efficiency, and ensure the long-term sustainability of these programs, the following recommendations are proposed to amplify their impact across stakeholders. A dedicated budget for awareness programs is essential to ensure effective and sustained outreach. Standardized report formats for implementation partners should be provided to streamline data submission and improve consistency. Strengthening monitoring through data digitization and automation will enhance real-time updates, improve patient care, and optimize resource utilization. Additionally, establishing a feedback mechanism for implementation partners, alongside the existing quarterly review process, will foster continuous improvement and accountability in the program's execution. By focusing on these areas, CCIL can further solidify its role in creating sustainable, equitable healthcare access across India, making a lasting impact on the lives of vulnerable populations through compassionate and strategic CSR investments.

### **About The Impact Assessment Agency:**

NuSocia is an impact advisory firm, headquartered at Pune and having its consultants working across Delhi, Mumbai, Bangalore, Kolkata and Pune and at locations outside India at Dubai, Toronto and Muscat.

Established in 2017 and incubated at IIM Bangalore NSCRCEL, NuSocia is working with the mission to enable the Social ecosystem with impact that is evident. The team comprise of consultants, researchers, social sector professionals and data scientists with a common passion to generate ideas that matter for the people and the planet. It works with Corporates, Governments, Foundations, and Non-profits to help them maximize, manage, measure, and communicate their social impact.
