2.0 Introduction/Background

The Clearing Corporation of India Limited (CCIL) is promoted by leading banks and financial institutions operating in India to address the need for a centralized clearing and settlement system for debt and foreign exchange transactions. The primary objective of setting up CCIL is to establish a safe institutional structure for the clearing and settlement of trades in the Government Securities, Forex (FX), Money and Debt Markets so as to bring efficiency in transaction settlement process. A unique institution of its kind in the country, CCIL has addressed the long-felt need for an institutional structure to support and facilitate the clearing and settlement of trades across different markets – viz., Government Securities, Forex and Money Markets. Subsequently, Clearcorp Dealing Systems (India) Limited (Clearcorp), a wholly owned subsidiary, was set up by CCIL to manage dealing systems/platforms in Money and Currency Markets to segregate its other activities from Clearing and Settlement activities.

Legal Entity Identifier India Limited (LEIL) – A Wholly Owned Subsidiary of The Clearing Corporation of India Ltd. Acts as a Local Operating Unit (LOU) for issuing globally compatible Legal Entity Identifiers (LEIs) in India. The Legal Entity Identifier (LEI) is a global reference number that uniquely identifies every legal entity or structure that is party to a financial transaction, in any jurisdiction. LEIL assigns LEIs to any legal identity including but not limited to all intermediary institutions, banks, mutual funds, partnership companies, trusts, holdings, special purpose vehicles, asset management companies and all other institutions being parties to financial transactions.

CCIL IFSC Limited (CCIL IFSC)- A subsidiary of The Clearing Corporation of India Ltd. (CCIL), is established to facilitate, promote, and support the clearing and settlement of foreign currency transactions within GIFT IFSC. This company aims to contribute to the evolving needs of businesses within GIFT IFSC by offering a diverse range of products and services to entities such as banks, insurance companies, depositories, stock exchanges, clearing corporations, and mutual funds in permitted foreign currencies.

To ensure that the technology deployed for various systems are being operated in a safe, secure, sound and efficient manner and regulatory compliance, we need to conduct an annual Systems Audit and periodic IT Systems and Security audits.

3.0 Purpose of RFP

The purpose of this document is to enable CCIL/ Clearcorp/ LEIL/CCIL IFSC to select and appoint Systems Auditor for conducting annual systems audit and periodic IT Systems and Security audit of the systems owned/managed by CCIL/ Clearcorp/ LEIL/CCIL IFSC, including post implementation verification of recommendations. The appointment/engagement will be for a period of three years.

4.0 Project Scope

A description of the envisaged scope is enumerated as in Annexure – IX. However, CCIL/ Clearcorp/ LEIL/CCIL IFSC reserves its right to alter/ change the scope as per its requirements. CCIL/ Clearcorp/ LEIL/CCIL IFSC expressly stipulates that the selection of the systems auditor under this RFP is on the understanding that this document contains only the principal provisions for the entire requirement and that actual deliverables and the services in connection therewith are only a part of the assignment. The systems auditor shall be required to perform all such activities to render requisite services by making available most suitable resources as required at each stage for successful completion of assignment at a price agreed with CCIL/ Clearcorp/ LEIL/CCIL IFSC.

5.0 Qualifying Criteria

The bidder must possess the requisite experience and capabilities/ competence to meet the requirements as described in this RFP. The bidder should have proven track record across multiple customers preferably of banks, financial institutions and financial intermediaries. Joint bids/ consortium arrangements are not permitted.

The invitation is open to all system auditors who qualify the criteria as given below.

Sr. No	Description
1.	The audit needs to be done by information security auditing firm empaneled with Indian Computer Emergency Response Team (CERT-In) with Certified Information System Auditor (CISA) registered with the ISACA or by a holder of a Diploma in Information System Audit (DISA) qualification of the Institute of Chartered Accountants of India (ICAI). Bidder has to provide profiles & CVs of people proposed to be engaged for systems audit with CISA/ DISA registration number(s).
2.	There should not be any conflict of interest for auditor, i.e. the firm conducting the systems audit or any of its sister concerns should not have been engaged in providing any type of service/s to the audited entity during the last two financial years.
3.	The bidder should have at least 25 employees on its payroll. Bidder has to provide number of employees on its payroll.
4.	The bidder should have experience of conducting full-fledged systems and security audit. Bidder has to list down at least two relevant assignments (preferably of banks, financial institutions and financial intermediaries) completed in last two years where audit fee/ purchase order amount was minimum Rs.5,00,000/- (inclusive of taxes).
5.	The bidder should have office in Mumbai and should provide list of office location(s) in Mumbai with address and contact numbers.
6.	The Bidder should not be currently blacklisted by any Government / Government agency/Bank /Institution in India or abroad. The bidder should provide declaration to this effect (Annexure VII) on their letterhead.

The bidder should submit above information in the format as given in relevant Annexure to this RFP.

6.0 Audit Scope, coverage and schedule

1. The scope of audit, coverage, schedule for Systems audit and IT Systems and Security audit will be as per the scope of audit given as Annexure IX.
2. Post implementation verification of recommendations/observations made by the auditor.

The locations to be covered under the scope of audit are:

CCIL/Clearcorp/LEIL

- i) Primary site at Mumbai (Dadar).
- ii) Near DR & AUL sites at Mumbai (Kurla)
- iii) Far DR site at Hyderabad
- iv) User Location at Pune

CCIL IFSC Limited

- v) Primary site at Gujarat Gift City & DR site at Hyderabad

Enhancements/ amendments to the coverage of audit for the second and third year, if any, shall be reviewed and finalized prior to commencement of audit process for the second and third year.

7.0 Expected Deliverables

1. IT Infrastructure assessment audit report covering hardware, system software, network, database, physical & general controls and Business Continuity. The audit report should include observations, severity of observations, reference of ISO 27001 control/clause for the observations, impact/risk, recommendations and activities which are found to be in order.
2. Application/ Area wise/ consolidated audit report covering observations, severity of observations, impact/risk and recommendations and activities which are found to be in order.
3. Executive summary of the audit report.

4. Immediate verification and confirmation on closure status of the observations.
5. Post implementation verification reports of audit recommendations upon request /multiple times depending on progress.
6. Presentations on audit reports to TAC/ Audit Committee/ Board of Directors, if required.
7. Separate reports on IT Infrastructure of various applications as per requirement on demand.
8. Audit certificate(s) as per requirement of regulatory bodies/ associations, if required.
9. The audit activities and report submissions are to be aligned with the timelines for regulatory submission, if any.
10. The submitted audit reports should be aligned with the Comprehensive Cyber Security Audit Policy Guidelines issued by Cert-In, some of the examples are “The audit reports shall be signed only by the manpower declared to CERT-In, as listed in the organization’s snapshot information available on the CERT-In website. The report must be signed by the Auditors who conducted the audit. It should then be reviewed and signed by a designated Reviewer who is not part of audit team and is from mid-management, to ensure an unbiased and quality review. Finally, the report must be authorized and signed by the Head of the Auditing Organization (e.g., Director, Partner, or CEO), certifying the completeness, accuracy, and integrity of the audit findings and recommendations.”, “A well-defined mechanism must be in place which clearly states the procedure in which the report would be stored and destroyed after the completion of audit by the auditing organization.”

Note: While the System Audit and ITSS Audit are treated as independent engagements, there is significant overlap in scope. The vendor shall conduct one consolidated audit approach, phased over four quarters, with separate and independent reports submitted for each audit.

8.0 General Terms & Conditions

Unless otherwise agreed to in writing by CCIL/ Clearcorp/ LEIL/CCIL IFSC, the following terms and conditions apply to this RFP, in addition to any terms set forth on the face of or attached to or incorporated by reference into this RFP.

The bidders who wish to submit responses to this RFP should note that they should abide by all the terms and conditions contained in the RFP. Sr. No.	Application/Infra structure.	Description
1.	IT Infrastructure	CCIL IFSC's IT infrastructure covering Gujarat Gift City
2.	Foreign Currency Settlement System (FCSS)	FCSS is an interbank payment system to facilitate the settlement of USD transactions initially on a real-time gross settlement (RTGS) basis among the member IBUs located in the GIFT City and their customers.

B) Scope of Audit

1. The scope of system audit must include the items indicated below. Auditors need to comment on each item, indicating any observation (or the lack of it). Controls need to be tested for both Design (Test of Design — ToD) and Operating Effectiveness (Test of Operating Effectiveness — ToE).
 - i. Information Security Governance — Assessment of the top management's role in overseeing the development, implementation and maintenance of the organization's information security management. It should include the following amongst others:
 - a. Policies related to information security;
 - b. Defined roles and responsibilities of various governance structure;
 - c. Identification and assessment of threats and vulnerabilities;
 - d. Management reviews of information security practices;
 - e. Additional checks based on the risk perception or threats as they emerge;
 - f. Key Risk Indicators (KRIs) by the entity as part of self-assessment.
 - ii. Access Control — Assessment of the access control mechanism in place to restrict and filter access to the IT assets of the organization. It should include the following amongst others:

- a. Granting access on a “need-to-have” and “need-to-know” basis;
 - b. Periodic user access reviews & revocation of access;
 - c. Privileged User Access Management;
 - d. Controlled access to vendors and service providers;
 - e. Maintaining audit trail for system activities.
- iii. Hardware Management — Assessment of controls with regard to hardware asset management from acquisition through disposal. Validation of effectiveness of controls on secure use of removable media.
- iv. Network Security — Assessment of the countermeasures in place to protect the network from malicious attacks and minimize or eliminate the possibility of any losses being incurred by the entity as a result of the network being compromised.
- v. Data Security -Assessment of the security measures implemented across the information life cycle starting from collection/ creation of data to storage, access, transmission and its eventual archival and/or deletion.
- vi. Physical and Environmental Security — Assessment of the physical and environmental security controls in place to protect assets from internal and external threats.
- vii. Human Resource Security — Assessment of the controls pertaining to human factors to prevent threats such as data leakage, data theft and misuse of data. It should include the following amongst others:
 - a. Recruitment (background checks, roles and responsibilities);
 - b. Information security training and user awareness;
 - c. Termination (removal of access to data and systems).
- viii. Business Continuity Management — Assessment of the disaster recovery capabilities of the audited entity and regular BCP drills. Controls should be designed so as to enable the entity to recover rapidly from any disrupting event and safely resume critical operations aligned with recovery time and recovery point objectives while ensuring security of processes and data is protected.
- ix. System Scalability — Assessment of controls relating to scalability of systems from a growth perspective and Turn Around Time (TAT) of transaction processing.
- x. IT Project Management — Assessment of controls in place for developing or acquiring new systems focusing on project risk. Examine whether systems are based on sound design principles which have built in security functionality such as Secure Software Development Life Cycle (S-SDLC) and are able to withstand malicious attacks by design and ensure that no security weaknesses have been introduced during the build process.
- xi. Vendor/Third Party Risk Management — Assessment of controls in place to ensure that outsourcing related risks are managed through adequate oversight measures that should include the following amongst others:
 - a. Service level agreement (it should mandatorily include right of audit / inspection by the home country regulators);
 - b. Assessment of the security controls during on-boarding or off-boarding
 - c. Implementation of baseline cyber security controls by the service provider;
 - d. Responsibility of service providers to get their systems audited to ensure error-free operation;

- e. Mandatory disclosure of any security incident specific to the entity's systems or processes.
 - xii. Incident Management — Assessment of the entity's response mechanism in the event of a security incident. Examine the organization's capability to identify the incident, contain the damage, investigate the incident, effectively respond and restore normal operations as quickly as possible with the least possible impact. Also, verify the effectiveness of controls around determination and elimination of the root cause to prevent the occurrence of repeated incidents.
 - xiii. Change Management — Assessment of controls in place for ensuring that changes are applied appropriately and do not compromise the information security of the organization.
 - xiv. Patch Management — Assessment of the mechanism in place to consistently monitor and configure systems and applications against known vulnerabilities in operating systems and other software.
 - xv. Log Management — Assessment of the security controls around generation, transmission, access, analysis, storage, archiving and ultimate disposal of log data.
 - xvi. Secure Mail and Messaging systems — Assessment of controls in place to ensure that the entity's inbound and outbound traffic in the form of mail, messages or any other media are secure.
 - xvii. Mobile and/or other Input / Output Device Management Policy — Assessment of security controls with regard to portable devices (e.g. smartphones, laptops etc.) having access to sensitive data.
 - xviii. Security Testing and Source Code Review — Assessment of the adequacy of system performance under stress-load scenarios, security controls including vulnerability assessment, penetration testing, configuration review and source code review.
 - xix. Online Systems Security — Assessment of controls in place to ensure security of payment information processing systems and Application Programming Interfaces (APIs) provided to internal/ external applications.
 - xx. Mobile Online Services (applicable for entities offering services through mobile applications) — Assessment of the controls in place to protect mobile applications and provided by the entity to its customers from malicious attacks.
 - xxi. Check if LEI number generation is in compliance with ISO 17442 standard for LEI application. (Applicable only for LEI application).
2. The auditors need to check open observations and compliance noted in the previous system audit so as to ensure sustained compliance.
 3. Deviations, if any, in the processes followed by the entity from the process flow submitted to RBI while seeking authorization should be mentioned by the auditor (applicable only for Systems covered under PSS Act 2007).
 4. Compliance to Guidelines on Cyber Security and Cyber Resilience for Regulated Entities in IFSC (Applicable for CCIL IFSC's FCSS)

5. Compliance to Master Direction – Reserve Bank of India (Electronic Trading Platforms) Directions, 2025 dated June 16, 2025 (Applicable for RBI authorized ETP & Clearcorp managed systems) in respect of IS/IT Audit.

D) Audit Schedule

a. Schedule for Systems audit is as given below:

2. IT SYSTEMS AND SECURITY AUDIT

S) Scope of Audit

- The audit should be carried out based on industry benchmarks and controls requirement issued by Reserve Bank of India from time to time to banks/ financial institutions/ Payment and Settlement Systems (PSS) entities as mentioned in RBI circulars related to Information Security.
- The area for audit is listed below:

Sr. No.	Audit Areas for FY 2026-27, 2027-28 and 2028-29. Following areas to be audited annually.
----------------	---

1	Information Technology & Information Security Governance	Defined roles and responsibilities of various governance structure; Identification and assessment of threats and vulnerabilities; Management reviews of information security practices; Additional checks based on the risk perception or threats as they emerge; Key Risk Indicators (KRIs) by the entity as part of self-assessment. Detailed organization reporting structure Exception register / tracker
2	IT / IS Security Policies & Procedures - document review	
3	Cyber Security Policies and incident management plan - document review	
4	CISO/ISMS Activities	Security Awareness Training etc.
5	ISO Audit implementation status review	
6	IT Infrastructure assessment and IT asset lifecycle management	Assessment hardware, system software, network, database, physical & general controls and Business Continuity. Assessment of inventory of Endpoint, Servers, network devices, Security devices, API, Application, Software's etc. Assessment of controls with regard to hardware asset management from acquisition through disposal. Validation of effectiveness of controls on secure use of removable media.
7	Risk Assessment/ Risk Treatment plan review (57 Risk Assessment Registers)	

8	Application Security	Assessment of controls in place for developing or acquiring new systems focusing on project risk. Examine whether systems are based on sound design principles which have built in security functionality such as Secure Software Development Life Cycle (S-SDLC) and are able to withstand malicious attacks by design and ensure that no security weaknesses have been introduced during the build process. Assessment of Configuration/rule in case reverse proxy used for API based communication, Review Inventory of API list, whitelisted API, Infrastructure level architecture diagram of applications which showcase the placement of all components, interface connectivity with respective applications, zones, etc., Review of security testing reports of API deployed in production, Review of URLs and IP address published in DNS for all applications. SBOM (Software Bill of Materials) Audit
9	Network Security including perimeter security, various security solutions	Review Inventory of Network and Security devices with comprehensive details, Review Inbound and outbound rules configured on all firewalls, Review of All network and security devices integration with syslog servers.
10	Host Security/End Point Security	Review of Endpoint Inventory, Anti-virus, NAC and threat detection technology review, Secure Configuration review
11	Physical/ Environmental Security	Physical Security Assessment, Data Center Assessment, Physical and environment controls configured to safeguard critical assets from natural disasters and other threats
12	Onsite Consultants – Controls	
13	SOC Activities	Review device Integration to SIEM, Actions for Alerts, Log review process etc.
14	Privilege Identity Management process	Review of list of all assets, application, database, network devices, middleware integrated with PIM/PAM, review of users created on PIM/PAM,
15	Data Privacy, DLP	Review of coverage of DLP tool across organization

16	System and Security audit at vendor/ third party (providing services such as offsite software development/ security operation center/ KYC services/ Other cloud services) locations (limited to services being provided to our organization). (5 vendors/ third party will amount to 5 reviews). Kindly provide top up cost of per vendor after completion of '5' vendors.	Vendor/Third Party Risk Management: a. Service level agreement (it should mandatorily include right of audit / inspection by the home country regulators); b. Assessment of the security controls during on-boarding or off-boarding c. Implementation of baseline cyber security controls by the service provider; d. Responsibility of service providers to get their systems audited to ensure error-free operation; e. Mandatory disclosure of any security incident specific to the entity's systems or processes.
17	Database Security	Review data in rest and data in transit encryption, Access Controls, Activity logs review, Data obfuscation etc.
18	Backup and Restoration testing	Restoration frequency and testing, Encryption
19	Capacity Management	Assessment of capacity management process
20	BCP and DR	Review of report of BCP / DR drills, Stress/ Volume test and Call tree restoration activity testing report.
21	Review of SWIFT Customer Security Control Framework (Oct-Nov of each year)	
22	IDRBT RA Activities – 6 monthly audits (August)	
23	IDRBT RA Activities – Annual audit (February)	
24	Review of change management forms generated in quarter 1 of Financial Year	
25	Review of change management forms generated in quarter 2 of Financial Year	
26	Review of change management forms generated in quarter 3 of Financial Year	
27	Review of change management forms generated in quarter 4 of Financial Year	
28	Audit on base line cyber security guidelines as given in RTGS system regulations and NEFT procedural guidelines (Report to be submitted by April 30 every year)	
29	ASP Audit for compliance to ESIGN services provide by M/s PROTEAN EGOV TECH (report to be submitted in August every year)	
30	Any other item related to IT Systems and Security audit, proposed by the auditors, after discussion with the management	
31	Status report of open observations of various audits – on Quarterly basis (Compliance Audit)	
32	Audit for compliance with additional controls for CSS, FSS, TR and RMS Applications (ITSSA Q2)	

The scope of the audit should consider the following Master Directions from RBI:

- RBI/DPSS/2024-25/123CO.DPSS.OVRST.No.S447/06-26-002/2024-25, July 30, 2024, “Master Directions on Cyber Resilience and Digital Payment Security Controls for nonbank Payment System Operators”.

The following document shall be used as a reference document / guideline for the conduct of the audit:

- Comprehensive Cyber Security Audit Policy Guidelines (CERT-IN)

B) Audit Schedules

All the above audit areas are to be covered during a FY, wherein a set of 8-10 areas (including period specific items) are audited in each quarter of the FY (Cycle – 1,2,3,4). The audit reports for each cycle are to be submitted within 10 days of the end of FY quarter. The post implementation verification shall be carried out within 1 month of audit report submission. Payments shall be linked to the audit activity completion and verification for each cycle.

Schedule for IT Systems and Security audit is as given below:

IT Systems and Security audit (Please refer to audit areas above-8-9 of the above areas should cover in each quarter)		Financial Year	Final report submission date
1	ITSSA for Q1	2026-2027	June 2026
	Final Post Implementation of ITSSA for Q1	2026-2027	July 2026
2	ITSSA for Q2	2026-2027	September 2026

Annexure X

Draft Terms and Conditions to be executed with Contractor

The draft terms and conditions that will be executed with the contractor by way of agreement are given below. Under no circumstances, CCIL/ Clearcorp/ LEIL/CCIL IFSC will be able to modify the terms and conditions.

1. Representations And Warranties

The Contractor shall warrant that the certificate supplied under this RFP is in compliance with the business requirement specifications agreed upon and does not have any defect arising out of faulty design, bugs etc., for a period of 2 months from the date of hardware/software/certificate delivery. The Contractor warrants that to the best of the Contractor's knowledge the Software Product does not contain any viruses, worms or Trojan horses. The Contractor shall provide remedies for defects reported by CCIL, within a mutually agreed time frame from the receipt of the bug information in order to ensure continued business operations. Further Contractor shall provide permanent solutions for the identified defects with the associated Root Cause Analysis. Each Party represents and warrants to each other that a) It has full power and authority to enter and perform this Agreement, b) this Agreement has been duly authorized, executed and delivered by it and c) the execution, delivery and performance of this Agreement by it will not i. contravene its constitutive documents, ii. contravene any material agreement or order, judgment or decree by which it is bound, or iii. Constitute a violation of any applicable law, rule or regulation of any government or regulatory body.

2. Environment, Social and Governance principles

- a. The Contractor will indemnify and keep indemnified and otherwise hold harmless, CCIL, its affiliates, directors, shareholders, officers, employees, authorized representatives, etc. from and against all direct losses, damages, claims, demands, costs and expenses (including legal fees and attorney charges) which CCIL may suffer or incur, as well as all actions, suits and proceedings which CCIL may face and all costs, charges and expenses relating thereto, arising out of:

- i. any misrepresentation or inaccuracy of the representations and warranties of the Contractor or any of the representations and warranties as provided by the Contractor being untrue, misleading or incorrect.
- ii. any breach, non-fulfilment or failure to perform (whether in whole or part) any obligation or covenant required to be performed by the Contractor pursuant to this Agreement.
- iii. any negligence (including delay or deficiency to perform its obligations as per this Agreement), fraudulent act or concealment on the part of the Contractor, as determined by a court of competent jurisdiction
- iv. any loss, damage or liability suffered due to misappropriation, leakage, security breach, or misuse of the Confidential Information, Intellectual Property, User Data, or the Services or of the documents or any other instruments which are in possession of the Contractor or its personnel or any sub-contractor engaged by the Contractor.
- v. infringement, misuse, or misappropriation of any Intellectual Property by the Contractor.
- vi. any claim, suit, action or proceeding related to the Services provided hereunder.
- vii. violation of any Applicable Law.

b. The Contractor shall indemnify, defend and hold harmless, CCIL and its officials, agents and employees, from and against all suits, proceedings, claims, demands, losses and liability of any kind of nature brought by any third party against CCIL, including but not limited to, all litigation costs and expenses, attorney's fees, settlement payments and damages, based on, arising from, or relating to:

(a) allegations or claims that the possession of or use by CCIL of any patented device, any copyrighted material, or any other goods, property or services provided or Certificated to CCIL under the future PO, in whole or in part, separately or in a combination contemplated by the Contractor's published specifications, therefor, or otherwise specifically approved by the Contractor, constitutes an infringement of any patent, copyright, trademark, or other intellectual property right of any third party; or
(b) any acts or omissions of the Contractor, or any one directly or indirectly employed by it in the performance of the Contract, which give rise to legal liability to anyone not a party to the Contract, including, without limitation, claims and liability in the nature of a claim for workers' compensation;

(c) for failure to comply with the requirements of the section hereof titled Governing law and Jurisdiction.

c. If the Contractor's information or any part thereof or any use thereof is held to constitute infringement, the Contractor shall promptly and at its own expense either:

- (1) procure for CCIL the right to continue using the Contractor's Information; or
- (2) replace same with non-infringing Information or
- (3) modify such Information in a way so that it becomes no infringing or
- (4) repay to CCIL, the fee relating to the whole or infringing part.

d. If any claim is commenced by a third-party with respect to which the CCIL is entitled to indemnification under this Clause, CCIL will provide notice thereof to the Contractor. CCIL will be entitled, if it so elects and in its sole discretion, to retain control of the defense, settlement, and investigation of any indemnification claim and

to employ and engage attorneys to handle and defend the same, at Contractor's sole cost. In the event that CCIL does not elect to retain control of an indemnification claim, the Contractor will control the defense, settlement, and investigation of such indemnification claim, employ and engage attorneys reasonably acceptable to CCIL to handle and defend the same, at the Contractor's sole cost. CCIL will cooperate in all reasonable respects, at the Contractor's cost and request, in the investigation, trial, and defense of such indemnification claim and any appeal arising therefrom. The Contractor will not consent to the entry of any judgment or enter into any settlement with respect to an indemnification claim without CCIL's prior written consent. CCIL may also, at its own cost, participate through its attorneys or otherwise in such investigation, trial, and defense of any indemnification claim and related appeals.

e. Notwithstanding anything contained in this Agreement, the rights granted to CCIL under this Clause will be in addition to and not in substitution for any other remedies, including a claim for damages or specific performance that may be available to CCIL in respect of an indemnification event under the Applicable Law. However, exercise of any alternative legal remedy will not be deemed to have relieved the Contractor of its liability under this Clause.

14. Limitation of Liability

CCIL shall have no liability whatsoever for any injury to Contractor personnel, agents or representatives suffered while on CCIL's premises or anywhere else including, without limitation, liability for any damages suffered which results from the malfunction of any equipment. CCIL will not be liable for any indirect, incidental, special or consequential damages, including the loss of profits, revenue, or use or cost of procurement of substitute goods, incurred by the Contractor or any third Party, whether in an action in contract, tort, based on a warranty or otherwise, even if the Contractor or any other person has been advised of the possibility of such damages.

However, it does not include any foreseeable events, commercial considerations or those involving fault or negligence on the part of CCIL or Contractor.

c. The above is without prejudice to the rights already accrued by the Parties as a result of their performance or failure to perform either in full or in part, pursuant to their obligations in the future PO, prior to the occurrence of events of Force Majeure.

30. Legal Binding: No Legal binding will exist between the contractor and CCIL until the issuing of the future Purchase Order by CCIL.

31. No Third-Party Beneficiary

Save as expressly provided herein, this Agreement is made and entered into for the sole protection and benefit of the Parties to this Agreement and is not intended to convey any rights or benefits to any third party, nor will this Agreement be interpreted to convey any rights or benefits to any person except the Parties to this Agreement.

32. Disputes CCIL and the Contractor shall make every effort to resolve amicably by direct informal negotiations any disagreement or dispute arising between them under or in connection with the future PO. Failing such settlement, the same shall be referred to a panel of 3 Arbitrators, one to be appointed by the CCIL and the other by Contractor and the third by both the arbitrators. The arbitrator so appointed shall be the Presiding Officer. The procedure shall be in accordance of the provisions of the Arbitration and Conciliation Act, 1996 (as amended from time to time), or any re-

enactment for the time being in force. The findings of the Arbitrator shall be final and binding on both the Parties. The venue and seat of Arbitration shall be Mumbai, India and only courts at Mumbai shall have exclusive jurisdiction in all such matters. The Arbitration proceedings shall be conducted in the English language.

33. Termination of Contract: Either Party shall have the right to terminate the future PO at any time before the expiry of the Term, in writing, in the event of any violation of the terms & conditions upon thirty days prior written notice. The future PO may be terminated upon the following:

a. In case of a material breach of any of the terms of the future PO by the breaching Party, the non-breaching Party shall notify the breaching Party of the breach so committed. Such breach shall be rectified by the breaching Party within 15 calendar days from the date of receipt of the notice issued by non-breaching Party. If, the breaching Party fails to rectify the breach within such cure period, the non-breaching Party shall have the right to terminate the future PO by giving 30 calendar days' notice in writing to the breaching Party and the future PO shall accordingly stand terminated at the end of the 30th calendar day.

b. This Agreement may be terminated immediately by notice in writing by either Party if the other Party is likely to become or becomes insolvent or makes or attempts to make an assignment for the benefit of creditors or ceases or attempts to cease to do business or institutes or has instituted against it or allows any third party to institute against it, any proceedings for bankruptcy, reorganization, insolvency, or liquidation or other proceedings under any bankruptcy or other law for the relief of debtors; and does not terminate such proceedings within thirty (30) days.

c. Any termination of the future PO howsoever caused, shall not affect any accrued rights or liabilities of other Party nor shall it affect the coming into force or the continuance in force of any provision hereof which is expressly or by implication intended to come into force on or after such termination. The Parties agree that the clause "Confidentiality" shall survive and continue to remain in force in accordance with the terms of the nondisclosure agreement in notwithstanding the termination of the future PO

34. Contractor to inform itself

The Contractor shall fully inform itself of all necessary obligations and statutes under Indian Law or any other applicable law and shall hold CCIL harmless for any such obligations. The Contractor shall also fully inform itself of all obligations and works necessary under the future PO. This shall include, but not be limited to, the knowledge and understanding of the physical, environmental and technical standards required for the provision and operation of the equipment, software and services within India

34. Injunctive

Relief The Contractor understands that in the event of a breach or threatened breach of this Agreement by the Contractor, CCIL may suffer irreparable harm and will therefore be entitled to seek injunctive relief to enforce the Agreement in addition to all other remedies available to it.

35. Mandatory disclosure of Cyber incidents/ IS incidents:

In the event of a Cyber security/ Information Security incident at the Contractor's office, affecting the confidentiality, integrity and availability of CCIL's data/services, directly or indirectly, the Contractor shall, within 24 hours of finding out the incident, report to CCIL the details of the incident along with details such as root cause analysis, damage caused, data/ service compromised, action taken to contain the incident. CCIL will ensure that the information received in this regard shall be kept confidential for its use and will be disclosed only to regulators, if required.)

36. Obligation to Disclose

If the receiving Party is required to disclose the Confidential Information of the disclosing Party as part of a judicial process, government investigation, legal proceeding, or other similar process, the receiving Party, where legally permissible, will give prior written notice of such requirement to the disclosing Party. Reasonable efforts will be made to provide this notice in sufficient time to allow the disclosing Party to seek an appropriate confidentiality agreement, protective order, or modification of any disclosure, and the receiving Party will reasonably cooperate in such efforts

37. Right To Audit

Notwithstanding anything contained hereinabove, Contractor shall on notice of 03 business days facilitate the CCIL and/or RBI to audit the services being provided by Contractor, limited to and in connection with services as under the Agreement. Such audit shall be done during normal business hours. For avoidance of doubt, such audit will not cause Contractor to be in breach of its organizational confidentiality requirement.

38. Assignment: Neither Party shall assign or otherwise transfer, subcontract, pledge or make any other disposition of the future PO or any of its rights, claims and obligations thereunder whether in whole or in part without the prior written consent of the other. Any such unauthorized assignment, transfer, subcontract, pledge or other disposition, or any attempt to do so, shall not be binding on CCIL. However, such action shall not relieve the Contractor from fulfilling its responsibilities under this Contract.

39. Related Party Disclosure The Contractor shall make prior disclosure of the transactions falling under the 'Related Party Transactions' in terms of the provisions of the Companies Act, 2013, Accounting Standard AS-18 or any other law time being in force and in case the transaction is non- Related Party Transactions, the Contractor shall confirm the same in writing to CCIL.
