

## The Clearing Corporation of India Ltd.

RMD/SS/BT/20/12

Dated : 10th Mar'21

### Securities Segment

#### **Back Testing Results of the effectiveness of using yield spreads/illiquidity related adjustments during the month of Feb'21.**

In terms of Para 3 of Notification No.RMD/SS/09/13 dated 28th August'09, yield spreads and spreads in terms of Rupees & paise are being used to factor in impact of illiquidity for the purpose of valuation

2. Improvement in terms of bringing model prices of securities closer to weighted average of traded prices could be achieved during Feb'21 as under:

S.No.	Category	Improvement in no. of cases*
1	Government of India Securities	85.59%
2	Special Securities issued by Government of India ^	-
3	State Government Securities	96.70%

\*Difference of less than Rs. 0.50 ignored.

^ No trades were observed

3. There were 68 cases of GOI securities and 12 cases of SDLs where due to yield spread and illiquidity related adjustments, the model price moved away from weighted average of traded price by significant margin (Rs.1 or
